Road Safety

Road traffic safety refers to the ways in which people can reduce the number of traffic accidents. Additionally, this topic also refers to traffic accidents, which are the ways in which people are harmed when driving. Start by researching the definition of road safety or the definition of traffic accidents. What are the laws that exist to protect people in driving? How are traffic accidents caused and what accidents are the most common? These are important issues related to this topic. Look at safety and traffic statistics in the UAE. How do these statistics compare to other countries? Is the UAE more or less dangerous to drive in than other countries? Look at government initiatives and laws regarding road safety as well as traffic laws. What are violations of these laws and how does the UAE discourage the breaking of these laws. Examples of organizations and initiatives related to road safety and traffic accidents include (but there are many more):

- Road Safety UAE
- UAE Automobile and Touring Club
- Suraya Foundation
